- Fabric 2 – scraps
- Fabric 3 – scraps
- White felt – scraps
- Black felt scraps
- Gold felt scraps
- Fusible web – scraps
- Batting
- Gray embroidery floss
- Sewing machine
- Coordinating thread

To make one Owl Stuffie:

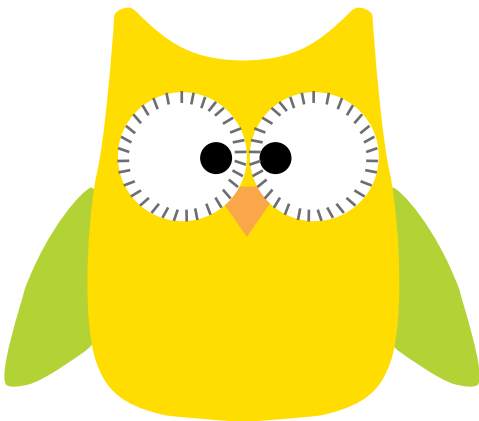

Die cut two body pieces from fabric. Die cut eyes and beak from felt. Hand stitch eyes and beak to one owl body. Fuse two pieces of fabric with right sides facing out following instructions for Fusible web. Die cut two wings from fused fabric.

Body Assembly: With fabric right sides together, base stitch owl body front and back together, including wings in their desired position. Wings should be “inside” the body when base stitching the body pieces together.

Base stitching is a simple hand-stitch to hold everything in place before machine sewing.

Leaving the bottom of the body open, sew a zig-zag stitch around the seam using a short, tight stitch about 1/8” wide seam. Turn the body right side out and gently point the ears.

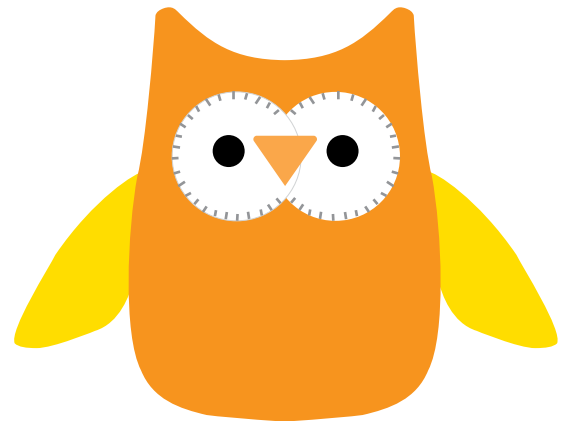

Stuff and hand-stitch the bottom closed.

Stitch around eyes

Stitch sleepy eyes and around whites of eyes.

Overlap whites of eyes and stitch around outer eyes

Variations using the same die
